Frayn KN Effects of fat on carbohydrate absorption: more is not necessarily better. 1
Normand S, Khalfallah Y, Louche-Pelissier C, Pachiaudi C, Antoine J-M, Blanc S, Desage M, Riou JP & Laville M Influence of dietary fat on postprandial glucose metabolism (exogenous and endogenous) using intrinsically ^{13}C-enriched durum wheat. 3
Gruffat-Mouty D, Graulet B, Durand D, Samson-Bouma ME & Bauchart D Effects of dietary coconut oil on apolipoprotein B synthesis and VLDL secretion by calf liver slices. 13
Rooke JA, Sinclair AG & Edwards SA Feeding tuna oil to the sow at different times during pregnancy has different effects on piglet long-chain polyunsaturated fatty acid composition at birth and subsequent growth. 21
Geelen SNJ, Blázquez C, Geelen MJH, Sloet van Oldruitenborgh-Oosterbaan MM & Beynen AC High fat intake lowers hepatic fatty acid synthesis and raises fatty acid oxidation in aerobic muscle in Shetland ponies. 31
Greathead HMR, Dawson JM, Scollan ND & Buttery PJ *In vivo* measurement of lipogenesis in ruminants using [1-^{14}C]acetate. 37
Fuller NJ, Wells JCK & Elia M Evaluation of a model for total body protein mass based on dual-energy X-ray absorptiometry: comparison with a reference four-component model. 45
Geyra A, Uni Z & Sklan D The effect of fasting at different ages on growth and tissue dynamics in the small intestine of the young chick. 53
Collin A, van Milgen J, Dubois S & Noblet J Effect of high temperature on feeding behaviour and heat production in group-housed young pigs. 63
Gibson RS, Heath A-LM, Limbaga MLS, Prosser N & Skeaff CM Are changes in food consumption patterns associated with lower biochemical zinc status among women from Dunedin, New Zealand? 71
Doyle W, Srivastava A, Crawford MA, Bhatti R, Brooke Z & Costeloe KL Inter-pregnancy folate and iron status of women in an inner-city population. 81
Banfield MJ & Forbes JM Effects of whole wheat dilution *v.* substitution on coccidiosis in broiler chickens. 89
Sim M-K Cardiovascular actions of chicken-meat extract in normo- and hypertensive rats. 97
Dudeja V, Misra A, Pandey RM, Devina G, Kumar G & Vikram NK BMI does not accurately predict overweight in Asian Indians in northern India. 105
Book reviews. 113
Trayhurn P Development of the *British Journal of Nutrition* – An *International* Journal of Nutritional Science. 115
Bellisle F Glucose and mental performance. 117
Moreno-Aliaga MJ, Marti A, García-Foncillas J & Martínez JA DNA hybridization arrays: a powerful technology for nutritional and obesity research. 119
Dulloo AG & Samec S Uncoupling proteins: their roles in adaptive thermogenesis and substrate metabolism reconsidered. 123
Horgan GW Statistical analysis of nutritional studies. 141
Fujita I, Hirano J, Itoh N, Nakanishi T & Tanaka K Dexamethasone induces sodium-dependant vitamin C transporter in a mouse osteoblastic cell line MC3T3-E1. 145
Smolders I, Van Loo J, Sarre S, Ebinger G & Michotte Y Effects of dietary sucrose on hippocampal serotonin release: a microdialysis study in the freely-moving rat. 151
Kuvibidila SR, Porretta C, Baliga BS & Leiva LE Reduced thymocyte proliferation but not increased apoptosis as a possible cause of thymus atrophy in iron-deficient mice. 157
Hung M-C, Shibasaki K, Yoshida R, Sato M & Imaizumi K Learning behaviour and cerebral protein kinase C, antioxidant status, lipid composition in senescence-accelerated mouse: influence of a phosphatidylcholine–vitamin B_{12} diet. 163
Green MW, Taylor MA, Elliman NA & Rhodes O Placebo expectancy effects in the relationship between glucose and cognition. 173
de Roos NM, Bots ML, Siebelink E, Schouten E & Katan MB Flow-mediated vasodilation is not impaired when HDL-cholesterol is lowered by substituting carbohydrates for monounsaturated fat. 181

Araya J, Rodrigo R, Orellana M & Rivera G Red wine raises plasma HDL and preserves long-chain polyunsaturated fatty acids in rat kidney and erythrocytes. 189
Koutsari C & Hardman AE Exercise prevents the augmentation of postprandial lipaemia attributable to a low-fat high-carbohydrate diet. 197
Hunter KA, Crosbie LC, Horgan GW, Miller GJ & Dutta-Roy AK Effect of diets rich in oleic acid, stearic acid and linoleic acid on postprandial haemostatic factors in young healthy men. 207
Landsman A, Lichtstein D, Bacaner M & Ilani A Dietary phosphate-dependent growth is not mediated by changes in plasma phosphate concentration. 217
Grases F, Simonet BM, Prieto RM & March JG Phytate levels in diverse rat tissues: influence of dietary phytate. 225
Volpè R, Niittynen L, Korpela R, Sirtori C, Bucci A, Fraone N & Pazzucconi F Effects of yoghurt enriched with plant sterols on serum lipids in patients with moderate hypercholesterolaemia. 233
Bosscher D, Lu Z, Janssens G, Van Caillie-Bertrand M, Robberecht H, De Rycke H, De Wilde R & Deelstra H *In vitro* availability of zinc from infant foods with increasing phytic acid contents. 241
Chen Z-Y, Kwan KY & Huang Y Accumulation and apparent oxidation of *cis,trans*-18 : 2 isomers relative to linoleic acid in rats. 249
Finegan EJ, Buchanan-Smith JG & McBride BW The role of gut tissue in the energy metabolism of growing lambs fed forage or concentrate diets. 257
Grunwald GK, Seagle HM, Peters JC & Hill JO Quantifying and separating the effects of macronutrient composition and non-macronutrients on energy density. 265
de MT Florêncio TM, da Silva Ferreira H, de França APT, Cavalcante JC & Sawaya AL Obesity and undernutrition in a very-low-income population in the city of Maceió, northeastern Brazil. 277
Gill HS & Rutherfurd KJ Viability and dose–response studies on the effects of the immunoenhancing lactic acid bacterium *Lactobacillus rhamnosus* in mice. 285
Kleessen B, Hartmann L & Blaut M Oligofructose and long-chain inulin: influence on the gut microbial ecology of rats associated with a human faecal flora. 291
Strand TA, Briles DE, Gjessing HK, Maage A, Bhan MK & Sommerfelt H Pneumococcal pulmonary infection, septicaemia and survival in young zinc-depleted mice. 301
Bonofiglio D, Catalano S, Maggiolini M & Andó S Parathyroid hormone secretion in low calcium intake smokers (Letter to the Editors). 307
Chwalibog A & Thorbek G Energy expenditure by *de novo* lipogenesis (Nutrition Discussion Forum). 309
Book reviews. 311
González-Gross M, Marcos A & Pietrzik K Nutrition and cognitive impairment in the elderly. 313
Whittaker PG, Barrett JFR & Lind T The erythrocyte incorporation of absorbed non-haem iron in pregnant women. 323
Martin C, Kristensen NB & Huhtanen P Comparison of non-tracer and tracer methods for determination of volatile fatty acid production rate in the rumen of sheep fed on two levels of intake. 331
Tuohy KM, Kolida S, Lustenberger AM & Gibson GR The prebiotic effects of biscuits containing partially hydrolysed guar gum and fructo-oligosaccharides – a human volunteer study. 341
Herrera MD, Pérez-Guerrero C, Marhuenda E & Ruiz-Gutiérrez V Effects of dietary oleic-rich oils (virgin olive and high-oleic-acid sunflower) on vascular reactivity in Wistar–Kyoto and spontaneously hypertensive rats. 349
Lemosquet S & Faverdin P A dynamic model to analyse intravenous glucose and insulin tolerance tests performed on dairy cows. 359
Gaíva MHG, Couto RC, Oyama LM, Couto GEC, Silveira VLF, Riberio EB & Nascimento CMO Polyunsaturated fatty acid-rich diets: effect on adipose tissue metabolism in rats. 371
Henningsson ÅM, Nyman EMGL & Björck IME Content of short-chain fatty acids in the hindgut of rats fed processed bean (*Phaseolus vulgaris*) flours varying in distribution and content of indigestible carbohydrates. 379
Garcia E, Cabrera C, Lorenzo ML, Sánchez J & López MC Daily dietary intake of chromium in southern Spain measured with duplicate diet sampling. 391

Hallgren CG, Hallmans G, Jansson J-H, Marklund SL, Huhtasaari F, Schütz A, Strömberg U, Vessby B & Skerfving S Markers of high fish intake are associated with decreased risk of a first myocardial infarction. 397

Brunner E, Stallone D, Juneja M, Bingham S & Marmot M Dietary assessment in Whitehall II: comparison of 7 d diet diary and food-frequency questionnaire and validity against biomarkers. 405

Verkasalo PK, Appleby PN, Allen NE, Davey G, Adlercreutz H & Key TJ Soya intake and plasma concentrations of daidzein and genistein: validity of dietary assessment among eighty British women (Oxford arm of the European Prospective Investigation into Cancer and Nutrition). 415

Book review. 423

McNulty H Increasing evidence in favour of mandatory fortification with folic acid (Invited Commentary). 425

Silva KDRR, Williams CM & Lovegrove JA Use of water-miscible retinyl palmitate as markers of chylomicrons gives earlier peak response of plasma retinyl esters compared with oil-soluble retinyl palmitate (Short communication). 427

Hocquette J-F, Graulet B, Vermorel M & Bauchart D Weaning affects lipoprotein lipase activity and gene expression in adipose tissues and in *masseter* but not in other muscles of the calf. 433

Hayashi K, Hara H, Asvarujanon P, Aoyama Y & Luangpituksa P Ingestion of insoluble dietary fibre increased zinc and iron absorption and restored growth rate and zinc absorption suppressed by dietary phytate in rats. 443

Creedon A & Cashman KD The effect of calcium intake on bone composition and bone resorption in the young growing rat. 453

Rooke JA, Sinclair AG & Ewen M Changes in piglet tissue composition at birth in response to increasing maternal intake of long-chain *n*-3 polyunsaturated fatty acids are non-linear. 461

Costarelli V & Sanders TAB Acute effects of dietary fat composition on postprandial plasma bile acid and cholecystokinin concentrations in healthy premenopausal women. 471

Younes H, Coudray C, Bellanger J, Demigné C, Rayssiguier Y & Rémésy C Effects of two fermentable carbohydrates (inulin and resistant starch) and their combination on calcium and magnesium balance in rats. 479

McDonald DE, Pethick DW, Mullan BP & Hampson DJ Increasing viscosity of the intestinal contents alters small intestinal structure and intestinal growth, and stimulates proliferation of enterotoxigenic *Escherichia coli* in newly-weaned pigs. 487

Ward WE, Yuan YV, Cheung AM & Thompson LU Exposure to purified lignan from flaxseed (*Linum usitatissimum*) alters bone development in female rats. 499

Milano GD & Lobley GE Liver nitrogen movements during short-term infusion of high levels of ammonia into the mesenteric vein of sheep. 507

Hua NW, Stoohs RA & Facchini FS Low iron status and enhanced insulin sensitivity in lacto-ovo vegetarians. 515

Gala J, Díaz-Curiel M, de la Piedra C & Calero J Short- and long-term effects of calcium and exercise on bone mineral density in ovariectomized rats. 521

Moynihan PJ, Rugg-Gunn AJ, Butler TJ & Adamson AJ Dietary intake of folate by adolescents and the potential effect of flour fortification with folic acid. 529

Chugh R & Puri S Affluent adolescent girls of Delhi: eating and weight concerns. 535

Jacobs DR Jr Grain *v.* cereal: an impediment to public understanding of food and a study in language (Nutrition Discussion Forum). 543

Ortiz R, Cortés L, González-Márquez H, Gómez JL, González C & Cortés E Flow cytometric analysis of spontaneous and dexamethasone-induced apoptosis in thymocytes from severely malnourished rats (Short communication). 545

Park HS, Ryu JH, Ha YL & Park JHY Dietary conjugated linoleic acid (CLA) induces apoptosis of colonic mucosa in 1,2-dimethylhydrazine-treated rats: a possible mechanism of the anticarcinogenic effect by CLA. 549

Dumesnil JG, Turgeon J, Tremblay A, Poirier P, Gilbert M, Gagnon L, St-Pierre S, Garneau C, Lemieux I, Pascot A, Bergeron J & Després J-P Effect of a low-glycaemic index–low-fat–high protein diet on the atherogenic metabolic risk profile of abdominally obese men. 557

Meijer EP, Goris AHC, Senden J, van Dongen JLJ, Bast A & Westerterp KR Antioxidant supplementation and exercise-induced oxidative stress in the 60-year-old as measured by antipyrine hydroxylates. 569

Hoskin SO, Savary IC, Zuur G & Lobley GE Effect of feed intake on ovine hindlimb protein metabolism based on thirteen amino acids and arterio–venous techniques. 577
Whittaker P & Chanderbhan RF Effect of increasing iron supplementation on blood lipids in rats. 587
Yates CA, Evans GS & Powers HJ Riboflavin deficiency: early effects of post-weaning development of the duodenum in rats. 593
Reilly JJ, Montgomery C, Jackson D, MacRitchie J & Armstrong J Energy intake by multiple pass 24 h recall and total energy expenditure: a comparison in a representative sample of 3–4-year-olds. 601
Schmidt MK, Muslimatun S, West CE, Schultink W & Hautvast JGAJ Vitamin A and iron supplementation of Indonesian pregnant women benefits vitamin A status of their infants. 607
Rueda FM, Hernández MD, Egea MA, Aguado F, García B & Martínez FJ Differences in tissue fatty acid composition between reared and wild sharpsnout sea bream, *Diplodus puntazzo* (Cetti, 1777). 617
Ozório ROA, Uktoseja JLA, Huisman EA & Verreth JAJ Changes in fatty acid concentrations in tissues of African catfish, *Clarias gariepinus* Burchell, as a consequence of dietary carnitine, fat and lysine supplementation. 623
Nakano E, Higgins JA & Powers HJ Folate protects against oxidative modification of human LDL (Short communication). 637
Buchholz AC, Rafii M & Pencharz PB Is resting metabolic rate different between men and women? (Short communication). 641
Birkett S & de Lange K Limitations of conventional models and a conceptual framework for a nutrient flow representation of energy utilization by animals. 647
Birkett S & de Lange K A computational framework for a nutrient flow representation of energy utilization by growing monogastric animals. 661
Birkett S & de Lange K Calibration of a nutrient flow model of energy utilization by growing pigs. 675
Kahn LP, Ouellet D & Nolan JV Estimation of allantoin flux using continuous infusion of [^{14}C]allantoin: sensitivity to plasma loading with unlabelled allantoin. 691
Athanasiadou S, Kyriazakis I, Jackson F & Coop RL The effects of condensed tannins supplementation of foods with different protein content on parasitism, food intake and performance of sheep infected with *Trichostrongylus colubriformis*. 697
Girard CL, Lapierre H, Desrochers A, Benchaar C, Matte JJ & Rémond D Net flux of folates and vitamin B_{12} through the gastrointestinal tract and the liver of lactating dairy cows. 707
Ranilla MJ, Carro MD, López S, Newbold CJ & Wallace RJ Influence of nitrogen source on the fermentation of fibre from barley straw and sugarbeet pulp by ruminal micro-organisms *in vitro*. 717
Kyle UG, Morabia A, Slosman DO, Mensi N, Unger P & Pichard C Contribution of body composition to nutritional assessment at hospital admission in 995 patients: a controlled population study. 725
Kruger HS, Venter CS & Vorster HH Obesity in African women in the North West Province, South Africa is associated with an increased risk of non-communicable diseases: the THUSA study. 733
Foreword. S1
Crews H, Alink G, Anderson R, Braesco V, Holst B, Maiani G, Ovesen L, Scotter M, Solfrizzo M, van den Berg R, Verhagen H & Williamson G A critical assessment of some biomarker approaches linked with dietary intake. S5
Wild CP, Anderson C, O'Brien NM, Wilson L & Woods JA A critical evaluation of the application of biomarkers in epidemiological studies on diet and health. S37
Branca F, Hanley AB, Pool-Zobel B & Verhagen H Biomarkers in disease and health. S55
Weber P Role of biomarkers in nutritional science and industry – a comment. S93
Brot C, Vestergaard P, Kolthoff N, Gram J, Hermann AP & Sørensen OH Vitamin D status and its adequacy in healthy Danish perimenopausal women: relationships to dietary intake, sun exposure and serum parathyroid hormone. S97
Day AJ & Williamson G Biomarkers for exposure to dietary flavonoids: a review of the current evidence for identification of quercetin glycosides in plasma. S105
Verhagen H, Hageman GJ, Rauma A-L, Versluis-de Haan G, van Herwijnen MHM, de Groot J, Törrönen R & Mykkänen H Biomonitoring the intake of garlic via urinary excretion of allyl mercapturic acid. S111

Lücker E, Horlacher S & Eigenbrodt E Brain in human nutrition and variant Creutzfeldt–Jakob disease risk (vCJD): detection of brain in retail liver sausages using cholesterol and neuron specific enolase (NSE) as markers. S115
van der Berg R, Haenen GRMM, van den Berg H & Bast A Transcription factor NF-κB as a potential biomarker for oxidative stress. S121
Index of Authors. 741
